

**NIJ-III A Certified**

**Instantly deployed bulletproof protection for police, fire and paramedics both inside and outside of their vehicles**

**New 5-Panel Model Now Available**

### Daily Headlines:

“Gunman opened fire on paramedic treating a civilian with a gunshot wound.”  
“Fireman shot by thugs”  
“Policeman shot in car at point-blank rage”  
“Border Patrol agent shot in gunfight.”  
No public safety professional should leave their station without the protection afforded by our external body armor.

- More surface area protection
- More confidence; more time
- No body wounds like worn vests
- Use inside and outside of the vehicle
- Can shield civilians with one hand
- Built-in gun holster
- Resists rounds from 9 mm, 357 mag and 44 mag weapons.
- NIJ-III A Certified.

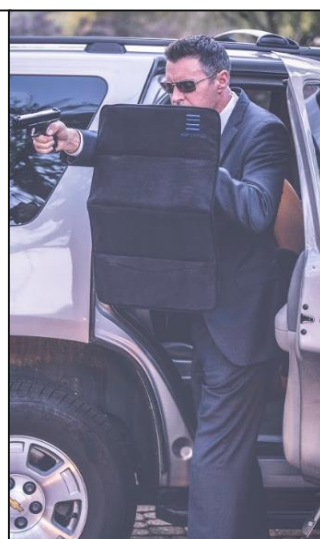

## SHIELD TECHNOLOGY – FOR PUBLIC SAFETY

We are Shield Technology and we are very proud of our product. Our team goes to work each morning to make a product that allows our public safety heroes to go home to their families each night. It is our passion and there is nothing more rewarding.

Each day, your team is called upon to make split-second, life and death decisions, not only for their own protection, but for the protection of the public they serve. Unfortunately, our brave men and women are routinely second-guessed. Our design engineers came up with a solution; a patented, bulletproof shield that afforded more protection and confidence. Their formula was very sound; [more surface area = more protection = more confidence = more time to make a decision.]

We invite you to evaluate our shield. We don't need to explain all the possibilities; you know them much better than we do. Be safe out there.

- Larger body protection surface area
- No "hit wounds" like worn body vests
- Extra holstered gun compartment

Shield Technology Inc. 4636 E. Elwood, Suite 1, Phoenix AZ 85040

## Use Our Public Safety Rental Program

Our shields may be purchased or rented. Our one-year, renewable, rental program is very accommodating for departments that may have capital budget restrictions and would like to procure a larger quantity of shields.

## Build-in Quick Release

One-handed operation with easy push button to deploy.

**Never go to work without it**

## Bulletproof Certificate

NIJ-III A compliant. Resists rounds from 9mm, 357mag and 44mag weapons.

**Protection = Confidence**
